

**JOBS ACCESS and REVERSE COMMUTE (JARC)**  
**Selection Criteria**  
**Sec. 5316 Program**

The New Hampshire Department of Transportation is responsible for administering the Federal Transit Administration (FTA) Sec. 5316, Jobs Access and Reverse Commute (JARC) Program for Small urbanized areas (populations 50,000-200,000) and nonurbanized (populations under 50,000).

The Department will issue a statewide solicitation for proposals for projects meeting the following criteria for selection:

- Applicant participated in a locally developed coordination plan as required by SAFETEA-LU.
- The project proposed must be identified in the plan for implementation.
- Applicant and the proposed project coordinates with other Federal programs and human service providers.
- Project addresses gaps in the current transportation system; and
- The Applicant has the financial and technical capacity to administer the project according to the guidelines.
- Priority will be given to maintaining existing projects that are successful.
